

## Vertical Balers

### X-series

## Baler X25 AD

### Fits into tight spaces and low ceilings

Internal cross cylinders make this baler very low in height and makes it easy to install.

### Achieve high bale weight

The superior press force combined with a long stroke helps you achieve a high bale weight.

### Highlights

- For various types of material – even expandable
- Large and wide chamber
- Retainers prevent in-chamber material expansion
- Short cycle time for fast clean up
- Moving parts are protected inside the machine
- Low overall height
- Powder Coating provides durable finish in many colors

## Optional Extras

Control who operates your baler with a digital auto lock.

You may choose other RAL colours for your balers.

With our monitoring system BRA-IN you can control and optimize your baler fleet.
