

Vertical Balers

X-series

Baler X50 HD

Efficient compaction

The X50 HD baler compacts heavy-duty materials quickly and efficiently. Easily bale aluminum and tin cans, hard plastic (PET), soft expandable plastic, and paper.

Produce heavy bales

High-capacity machine that produces heavy bales of up to 1,200 lbs. It has a long lifetime due to the unique design and reliable hydraulics.

Highlights

- Most material types are compacted easily
- Impressive compression ratio
- Very little expansion of material between press cycles
- Tie off finished bales with either steel wire or plastic strapping
- Fast press cycle
- Electrical control panel safe and easy to access
- All moving parts located inside machine
- Powder Coating provides durable finish in many colors

Optional Extras

Restrict who can use your baler with an auto lock.

Get online access to your balers with our monitoring system called BRA-IN.

You may choose other RAL colours for your balers.
