

## Vertical Balers

### B-series

## Baler B30 Wide

### Baler for very large boxes

With an extra wide chamber of more than 1.5 metres, this machine handles even the largest boxes.

### High compaction ratio

The pressure is maintained on the bale while you tie it. This gives you a highly compact and stable cardboard or plastic bale.

### Highlights

- Extra wide chamber (>1,5 metre)
- For even the largest boxes
- Use either plastic straps or metal wire
- Notification when chamber is full
- Bale is ejected automatically
- Produces large cardboard bales of minimum 400 kilos
- Powder Coating provides durable finish in many colors

## Optional Extras

With our monitoring system BRA-IN you can control and optimize your baler fleet.

Personalize your baler with a custom RAL colour of your choice.

A sliding door stays open by default and gives you hands-free waste filling.
