

Vertical Balers

B-series

Baler B30 Wide SD

Baler for very large boxes

With an extra wide chamber of more than 1.5 metres, this machine handles even the largest boxes.

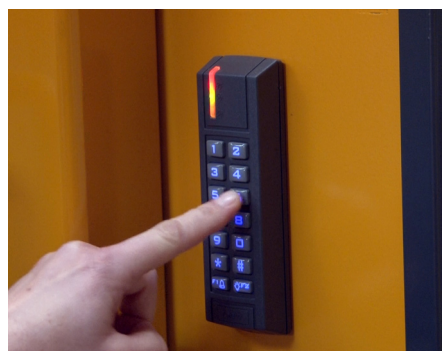

High compaction ratio

The pressure is maintained on the bale while you tie it. This gives you a highly compact and stable cardboard or plastic bale.

Highlights

- Extra wide chamber (>1,5 metre)
- For even the largest boxes
- Use either plastic straps or metal wire
- Notification when chamber is full
- Bale is ejected automatically
- Produces large cardboard bales of minimum 400 kilos
- Powder Coating provides durable finish in many colors

Optional Extras

Control who operates your baler with a digital auto lock.

Get online access to your balers with our monitoring system called BRA-IN.

Balers are available in other RAL colours which you may choose.
