Master TS-2K Lacquer

- FIBA Approved (Competition Level 1)
- Anti-slip certified, DIN 51130:R9
- Approved for sports, DIN V 18032-2 and DIN EN 14904-2006-6
- The Indoor Climate Label
- Fire classification according to DIN EN 13501: Bfl-s1

WOCA Master TS-2K Lacquer is a two-component, water-based floor lacquer that has been specially developed for corridors, sports areas and multi-purpose halls that are exposed to high wear. It excels by providing tough protection, excellent durability and a remarkably high resistance to scuff marks, wear and scratches. This indoor climate labelled lacquer is applied in a convenient and safe way, and ensures a comfortable indoor climate afterwards.

- 2,5 L
- 6–10 m²/L
- Water-based
- Max. 110 g/L
- RAL 1021 Yellow, RAL 3000 Red, RAL 5010 Blue, RAL 6029 Green, RAL 9016 White, RAL 9017 Black

Master TS Line Marking

WOCA Master TS Line Marking is a lacquer-based paint developed for marking lines in sports and recreational facilities, such as sports halls and multi-purpose arenas. The line marking paint is water-based and specifically designed for lacquered wooden floors, complying with the European sports standard EN 14904. It is available in six standard RAL colours and is both Danish Indoor Climate Certified and DIBt-approved, ensuring the product meets strict environmental and health standards.

Anti-slip Additive

- Improves slip resistance
- For areas with high anti-slip requirements

Anti-slip Additive is a specialized product designed for use with water-based WOCA Lacquers, including Master TS-2K Lacquer, Master XP-2K Lacquer, and Master RD-2K Lacquer. It helps create a less slippery surface, making it ideal for areas requiring enhanced safety. The product is DIN 51130 approved, ensuring reliable anti-slip performance.

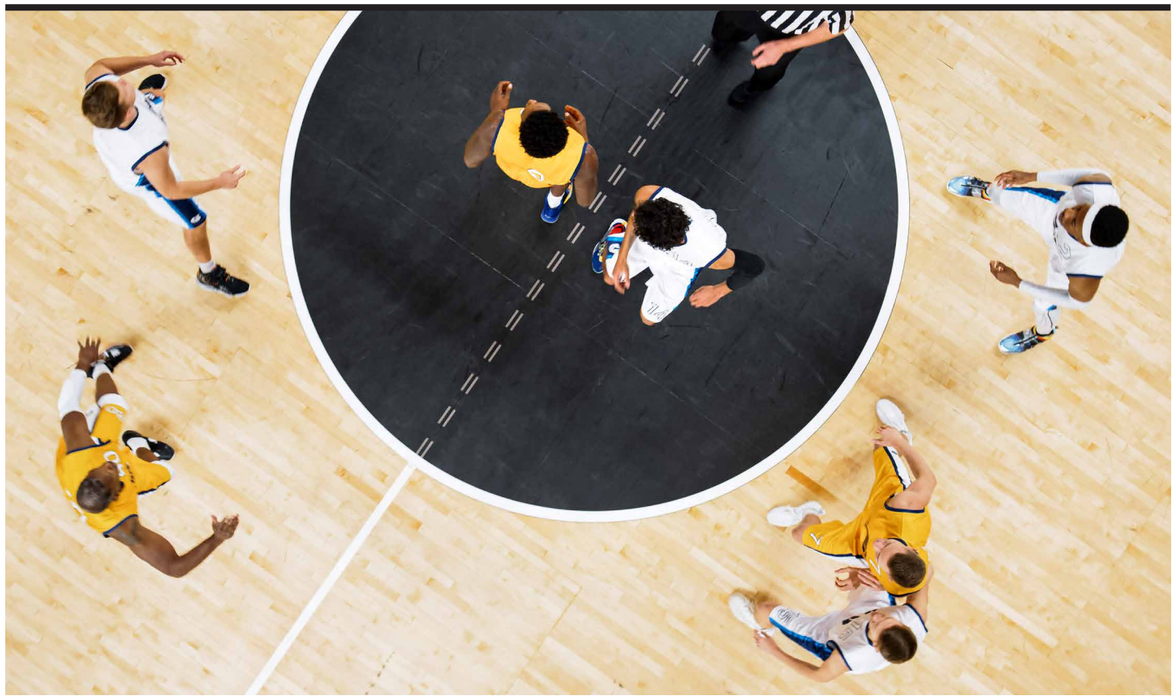
UV Shield

- Protects the wood against UV-light
- Reduces the yellowing of the wood
- Suitable for all WOCA water-based lacquers
- Comes in UV-protectet packaging

UV Shield is an additive for all WOCA-based lacquers that protects against the natural colour changes and minimizes the yellowing of the wood from sun exposure.

Clean & Care for Sports Floors



High-performance and durability to classic sports floorings that can survive decades of intense use with a minimal of maintenance.

With its extreme strength and resistance, Master TS-2K Lacquer is particularly suitable for sports halls, multi-halls, and corridors with high traffic. The lacquer is Indoor Climate Labelled and ensures a healthy indoor climate both during and after application and delivers excellent durability even in the most exposed places. Master TS-2K Lacquer has a unique strength and incredibly high resistance to scratches, abrasion and heel marks, providing just the right, strong finish for the world of sports.

Master Cleaner

- Effective care and cleaning for lacquered, vinyl and laminate floors
- Produces a stronger, more resistant surface
- Fast and easy to use

WOCA Master Cleaner is an ideal solution for cleaning vinyl, laminated, and lacquered surfaces. It efficiently removes dirt and grime while simultaneously strengthening the surface, enhancing its resistance to liquid spills.

- 1 L
- Approx. 60 m²/L
- Water-based
- Max. 30 g/L
- Matt

Master Care

- Care treatment to refresh lacquered, vinyl and laminate floors
- Extends the lifetime of the floor
- Protects against wear and scratches

WOCA Master Care is a maintenance product designed to smooth out small scratches, enhance surface resistance, and provide effective protection against wear. Its application helps extend the lifespan of surfaces or floors. Since it does not form a thick coating, WOCA Master Care can be applied as needed for ongoing maintenance.

Master TS-2K Lacquer is approved and certified according to European standards:

FIBA approval:

WOCA Denmark has been officially approved as a provider of FIBA-Approved Equipment - Competition Level 1 - for basketball courts.

This recognition highlights WOCA Denmark's commitment to quality and performance, ensuring that its products meet the highest international standards set by the International Basketball Federation (FIBA).

The FIBA Equipment & Venue Centre is entrusted by FIBA to run a strict high-quality and comprehensive Approval Programme for basketball related products and equipment. Only established companies may submit their products for approval.

Master TS-2K Lacquer is also approved and certified according to European standards:

DIN V 18032-2 / EN14904 are european standards that specifies requirements for surfaces for indoor sports facilities, such as reflectance, gloss and friction. Floors for sporting activities, sport halls, halls for gymnastics, games and multi-purpose use.

DIN 51130 is a standardised anti-slip test for flooring typically used for high traffic areas, workplaces, official buildings and sports areas where there is a requirement that products have the anti-slip test *DIN 51130* classified from R9 to R13.

The Indoor Climate Label documents a natural component in sustainable construction, where a good indoor air quality contributes to social sustainability.
