Cleaner for UV Products

Cleans tools and machinery used for UV-oils

Cleaner for UV-Oils is used for efficient cleaning of industrial tools and machinery soiled with UV-hardening liquids. It helps maximizing productivity and achieves a faster start-up phase as well as high performance results, as no oil and colour remains will affect the process. Beyond that, the tools and machinery will also last longer when the are cleaned properly after use. Cleaning must be performed before UV-oils are cured using UV-light.

- High flashpoint - less risk in production
- Excellent removal of UV liquids and grease
- Suitable for both UV oil and UV lacquer
- Helps improve productivity
- Improves durability of tools and machinery

Application area

For cleaning of rollers, brushes and spraying equipment. Ideal for all types of metal.

Work description

Preparation
The wood must be clean, dry and free from dust.

How to apply

Components can be wiped off or dipped in the cleaner.
Roller, pumps and brushes are best cleaned by recirculation of the cleaner.

Technical data

Density: 0.85-0.90 g/ml.

Shelf life: 3 years

Colours: Colourless

Storage: +10-25°C. Keep out of reach of children. Do not expose to heat (e.g. sunlight). Store frost-free during winter and cool during summer.

Packaging sizes: 25 L
